

THE FLASH FEATHER

You were not meant to move slowly.

*You were meant to feel the shift
when others feel stillness.*

*The moment before thunder.
The flicker before fire.*

The call no one else hears.

This is your signal.

The flash that speaks in silence.

The whisper carried by wings.

3 ECHOES TO FOLLOW:

1. In Heart:

What pulses fast inside you is not fear—it's arrival.
Say yes before it fades.

2. In Mind:

Not every answer waits. Some leap.
Listen for the one that crackles.

3. In Path:

If the wind shifts, shift with it. You are not
off course—you are the course.
