How to Care for Your Magic Pebble

(Zin says this is super-duper important!)

💖 **Be nice to it** – Your pebble may not have ears, but it definitely hears you. Use kind words and big smiles.

☀️ **Give it naps** – Let it rest in warm sunlight, cozy blankets, or moonbeam spots. (No microwaves, please!)

🎪 **Talk to it** – Tell it your dreams, your snack plans, or your pet's weird habits. It LOVES silly stories.

👁️ **Watch closely** – If it sparkles, wiggles, or gives you the hiccups... something magical is happening.

🖐️ **Never yell or toss it** – Pebbles have feelings too. If you're too rough, it might roll back to the Timecove.

★ **Bonus tip** – Being extra kind, brave, or helpful may earn you Guardian Points... or even a secret badge!
